/ Automotive Systems Manufacturing

Concept Group International

Multidiscipline provider of design to manufacture solutions

We are multidiscipline providers of design, product development and manufacturing solutions.

Traditionally Automotive, our day to day activities now encompass a wider range of transport sectors including; Aerospace, Marine and Defence.

Our business is growing with the supply of systems for niche automotive components...

/ Typical Low Volume Systems Manufacture

Concept Group International

Multidiscipline provider of design to manufacture solutions

Engine Dress

- Injection Moulds
- Machined Parts
- RIM Tooling & Parts

Mirror Systems

- Prototype Parts
- CNC Acrylics
- Injection Mould Tools

Interior Trim

- Fabricated Machined Seat System
- Low Density Foam Tools
- Trimming

Body Panels

- Composite Body Tooling
- Non Structural Parts
- Exterior Brightware
- Full Body Shop Painting

Body Prototyping

- Assembly Fixtures
- Production Fixture Tools
- Body Engineering Assembly Process
- Analysis with Drivable Clinic Models

RIM Parts

- Plastic Closeouts

Injection Moulding

- Non-Critical

Aluminium Tooling

Facias

- Composite Body Tooling
- RIM Tooling & Parts

Lamps

- Prototype Parts
- CNC Acrylics
- Injection Mould Tools

Grilles and Moulds

- Injection Moulds
- Machined Parts
- RIM Tooling & Parts
- Fabricated Grilles

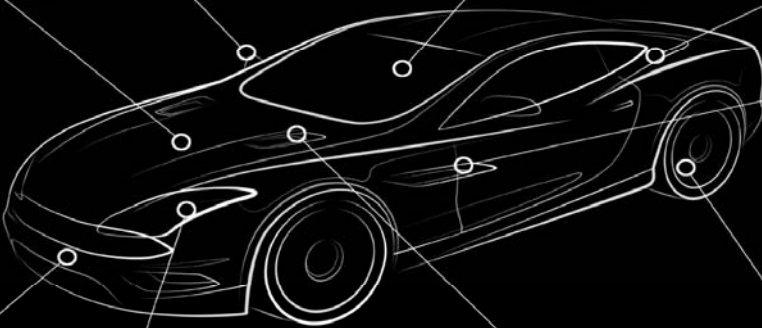

Detail Trim

- CNC Details
- Exterior Brightware
- Full Body Shop Painting

Alu Casting / Machining

- CNC Stock
- Pattern Equipment
